OBJECTIVE

Enthusiastic **MERN Stack Developer** with a strong foundation in **Java-based Data Structures and Algorithms**. Skilled in building responsive full-stack web applications, developing REST APIs, and handling complex problem-solving scenarios. Passionate about writing clean, efficient code and continuously improving technical skills through hands-on projects and collaborative development.

TECHNICAL SKILLS

Languages: Java, JavaScript

Frontend: HTML, CSS, Tailwind CSS, React.js

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Databases: MongoDB, MySQL

Version Control: Git, GitHub

Other Tools: ChatGPT, Google NotebookLM, Perplexity AI, Gamma.app

Core CS Concepts: Data Structures & Algorithms, OOPs, DBMS, OS, Computer Networks, Time Complexity

EDUCATION

- B.Tech in Information Technology – JD College of Engineering & Management, Nagpur (Sep 2023 – Jun 2026) | CGPA: 7.99
- Diploma in Computer Engineering – Government Polytechnic, Murtizapur (2019 – 2022) | 73.54%
- SSC – J E School Muktainagar (2019) | 73.40%

PROJECTS

- Pulse Student – A Unified Platform for Complaint Management & Student Collaboration | [GitHub](#)
 - HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, EJS, REST APIs, Git & GitHub, Bootstrap, JWT Authentication, Socket.io (for real-time features)
 - Smart complaint submission with real-time voting to prioritize important student issues
 - Admin dashboard with role-based access for tracking, managing, and resolving complaints efficiently
- Airbnb Clone – Property Listing & Booking Platform
 - **Tech Stack:** HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, EJS, REST APIs
 - Property listing, editing, deletion, and detailed view pages
 - User authentication, authorization, and booking flow implementation

EXPERIENCE

- Full Stack Web Development Intern | Progrentures™ Solution Pvt. Ltd. (Sep 2025 – Feb 2026 Ongoing)
 - Implementing front-end and back-end modules using MERN stack and REST APIs.
 - Collaborating on live projects to enhance UI/UX and database optimization.
 - Improved API integration speed and application performance across modules.

ACHIEVEMENTS & HACKATHONS

- Certificate of Participation – Hackon 2025 Hackathon – Government College of Engineering (Nagpur), Hackon 2025 | Feb 2025
- NPTEL-Joy of Computing Using Python | Issued by IIT Madras | Successfully | 2024
